Microsoft Cloud Computing Offering

Presenter: *Allyn D. Shockey, Microsoft Corporation*

Microsoft's Cloud Vision: Greater Choice, Flexibility

We give organizations the choice of deploying their Microsoft infrastructure from the cloud or on premises. Central to our strategy is bringing together the best of cloud-based services and the software that resides on a world of devices. Software-plus-Services combines the power of local client and on-premises server software combined with the reach and always up-to-date nature of services in the cloud. The choice around deployment options Microsoft provides is now greater and the opportunity for you to map infrastructure to your business needs is significantly enhanced.
